

# Product Repairs

Take advantage of the industry leading product repairs service now available at Kempston Controls

**Free & no obligation evaluation**

**Over 2600 automated testing fixtures**

**Emergency 24 hour turnaround**

**Industry leading 2 year warranty**

**PLC, Servo Drives/ Motors, HMI /Monitors, Circuit Boards, AC/ DC Drives, CNC, Industrial PC's, Photoelectrics / Sensors, PCB Relays, Timers/ Counters, Light Curtains**

Here at Kempston Controls we'd love to sell you a new product, it's what we do best. But in todays climate we all need to do our part for the environment, so we're promoting product repairs, a service not often utilised in the industry. Don't rush out to throw your non-working drives and sensors away, give us a call and see if they can be repaired first.

**KEMPSTON

# How does it work?

1

## **Call us with your part number to check which repair option is available for you**

We can offer repairs on a range of products outside our product portfolio

Base price given initially where possible

2

## **Return your product to our Worldwide Distribution Centre**

While with us we'll complete a free of charge evaluation to ensure the work can be completed

3

## **Completed Evaluation**

After completing our evaluation process we'll contact you regarding the full repair price and advise on further steps

4

### **Repair?**

If we can repair your item you can place an order

### **Non-Repairable?**

We can scrap or return your item free of charge

5

## **Product Repaired!**

We'll complete your repair and we'll resend your product complete with a 2 Year Warranty
